**payment of the appropriate fee**, the Applicants elect to prosecute the invention of **Group IV** (Claims 56-61, in part, 66-69, and 70-74, in part), drawn to a pharmaceutical composition comprising a nonbridged aminocyclohexane derivative, of the Restriction Requirement.

The Examiner may withdraw the non-elected subject matter, without prejudice to its rejoinder during later examination and/or prosecution in a Divisional Application.

Finally, with the instant Response, the Applicants also submit an Information Disclosure Statement which, it is respectfully submitted, should materially advance and accelerate the prosecution of the above-identified application. It is respectfully requested that the information be expressly considered during the prosecution of this application and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

As will be noted, this Information Disclosure Statement calls a number of references, which might be considered relevant, to the attention of the Examiner. The fact that these references are in fact "Prior Art" is, however, not admitted.

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR § 1.98 and the Examiner is respectfully requested to consider the listed references.
